Insurance Information

Are you insured? Yes No

Please present your health insurance cards to the receptionist so they can scan them and attach them to your records.

Consent for overall treatment and payment

I authorize any Family Healthcare licensed healthcare provider to perform such diagnostic, telehealth/televisit, medical, counseling/mental/behavioral health, dental, and/or surgical procedures as may be necessary for proper health care. I also give permission for administration of medications and immunizations as may be necessary for treatment or preventive care.

I authorize Family Healthcare and its affiliated providers to view my external prescription history. I understand that prescription from other unaffiliated healthcare providers, insurance companies and pharmacy benefit managers may be viewable by my providers and staff at Family Healthcare, and it may include prescriptions over several years.

I understand that proof of personal information may be required at any time for any reason. I will notify Family Healthcare of any changes in my health status or any of the above information. If I have provided fraudulent information, I may be subject to immediate termination of services and/or prosecution for fraud/perjury.

I understand that payment for services is due at the time of service. I understand that Family Healthcare will bill my insurance for any and all services rendered. I authorize Family Healthcare to release all or part of my/patient's record to any person or organization liable for payment. I agree to pay for all charges not paid by my insurance company. If my account is sent to a collection agency, I agree to pay all reasonable collection and attorney's fees.

I understand that to be enrolled in Family Healthcare's federal sliding fee discount program, I must complete a Sliding Fee Discount Program Application for all wage earners in my family (self, spouse/partner, children to age 26). I understand that all sources of income, including wages, unemployment, social security, retirement, alimony, child support and disability income will be included and documented properly. If I do not provide proof of income at the time of service, I will be charged the full cost of services. I also understand that my eligibility to receive health care at a reduced rate will be reviewed every 12 months.

I permit a copy of this authorization to be used in place of the original release of information form and request that the payment of healthcare insurance benefits be paid to Family Healthcare (Southwest Utah Community Health Center).

I have read all of the information on this registration form and have completed it to the best of my ability. I certify that this information is true and correct to the best of my knowledge.

Consent to proceed with dental procedures

I authorize Family Healthcare and associated dentists, associates, and assistants as designated to perform procedures as may be deemed necessary or advisable to maintain my dental health or the dental health of any minor or other individual for which I have responsibility, including arrangement and/or administration of any sedative (including nitrous oxide), analgesic, therapeutic, and/or other pharmaceutical agent(s), including those related to the restorative, palliative, therapeutic or surgical treatments.

I understand that the administration of local anesthetic may cause an adverse reaction or side effects, which may include, but are not limited to bruising, hematoma, cardiac stimulation, muscle soreness, and temporary or permanent (rarely) numbness. I understand that sometimes needles break and may require surgical retrieval. Sometimes drops of local anesthetic may contact the eyes and facial tissues and cause temporary irritation.

I understand that as part of dental treatment, including preventive procedures such as cleanings and basic dentistry, including fillings of all types, teeth may remain sensitive or even possibly quite painful both during and after completion of treatment. After lengthy appointments, jaw muscles may also be sore or tender. Gums surrounding tissues may also be sensitive or painful during and/or after treatment. Although rare, it is also possible for the tongue, cheek, or other oral tissues to be scraped by accident or cut during routine dental procedures. In some cases, sutures (stitches) or more

treatment may be required.

Consent Continued:

I understand that as part of dental treatment items including, but not limited to crowns, small dental instruments, drill components, etc. may be inhaled into the respiratory system or swallowed. This unusual situation may require a series of x-rays to be taken by a physician or hospital and may in rare cases, require bronchoscopy or other procedures to ensure safe removal.

I understand the need to tell the dentist about any prescription drugs that are currently being taken or that have been taken in the past, such as Phen-Fen. I understand that taking the class of drugs prescribed for the prevention of osteoporosis, such as Fosamax, Boniva, or Actonel may result in complications of non- healing of the jawbones following oral surgery or tooth extractions.

I do voluntarily assume any and all possible risks, including the risk of substantial and serious harm, if any, which may be associated with general preventive and operative treatment procedures in hopes of obtaining the potential desired results, which may or may not be achieved, for my benefit or the benefit of my minor child or ward. I acknowledge that the nature and purpose of the foregoing procedures have been explained to me if necessary and I have been given the opportunity to ask questions.

NOTICE OF PRIVACY PRACTICES

Acknowledgement of Receipt
Effective Date: April 14, 2003
Last Update: February 22, 2022

Please review this disclosure carefully.

The Notice of Privacy Practices tells you how Family Healthcare may use or disclose information about you. Not all situations will be described. Family Healthcare is required to inform you of our privacy practices for the information we collect and keep about you. You may obtain this information by asking anyone at Family Healthcare or by contacting the Privacy Officer at 435-986-2565.

HOW WE MAY USE AND DISCLOSE HEALTH INFORMATION ABOUT YOU.

The following categories describe different ways that we use and disclose your medical information. For each category, we explain what we mean and give you some examples; however, we cannot list every possible use or disclosure. If you have questions about the categories or examples, please contact our Privacy Officer at 435-986-2565.

For Treatment: We use your medical information to understand your health condition and to treat you when you are sick. We share your medical information with the doctors, nurses, technicians, health students, and other personnel who are involved in taking care of you. They may work at our offices, at a hospital, or at another doctor's office, lab, pharmacy, or other healthcare provider to whom we may refer you for tests or treatments. For example, a doctor outside our clinic who is treating you for a broken leg will need to know if you have other medical problems because these could impact the ability of your body to heal your broken leg. For example, diabetes may slow the healing process for a broken leg so the other doctor will need to know if you have diabetes. We may also disclose your medical information to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.

For Payment: We use your medical/healthcare information so that the treatment and services you receive from us may be billed to and collected from an insurance company, a state Medicaid agency, or other third party, such as a 340B administrator (prescription medication program).

We may submit (or may already have submitted at a past visit) your personally identifiable information to the Utah Medicaid eligibility database and the Children's Health Insurance Program eligibility database to determine if you are enrolled in or eligible for either program.

For Healthcare Operations: We use your medical/healthcare information to improve the quality of operations at our healthcare practice. For example, we may use your medical records to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine parts of your medical records that do not identify you personally with similar information from other patients to decide what additional services we should offer, what services are not needed, whether certain new treatments are effective, and to compare how we are doing with other healthcare practices.

I have been given a copy of Family Healthcare's Notice of Privacy Practices and have had a chance to ask questions about how my information should be used.
